You would feel a bit more of empathy to those hundreds of Elliots in a tube everyday...

By Sergey Kesoyan

As a one working in marketing I'm always skeptical about books about marketing people or function. But the strength of this one lies in very well developed characters and magnetically engaging story. Through the novel you follow the crisis of a modern middle class sometime turning as an exit-less tragedy. The story is full of everyday micro insights though having the great power of recognition calling for empathy and compassion. The end though happens to be unexpectedly optimistic and life-assertive that seldom offered these days.

Dutton's debut novel is a must read

By Emily Wallace

If you enjoyed Hornby, there's a new Nick on the block. Through the lens of a stressed marketing manager, Nick Dutton captures the torments, the vanities and the absurdities of working life today.

Part Dickens, part Bridget Jones, it is a well-observed and hilarious profile of the times we live in with triumphs and insecurities neatly woven together.

The Alsatian moment is a classic of modern literature and totally unforgettable.

Excruciatingly enjoyable from start to finish.

Accurately depicts the ridiculous world of marketing and media

By Angela Willmott

I read this debut novel in about an hour. It held a slightly warped mirror up of the world I work in and it made me smile on every page. The characters were well developed and the story had a surprising end. It does make me think what on earth is going on in the mind of Nick Dutton. Looking forward to novel number 2!
