## **TURBO BOOST YOUR THINKING SPEED AND ENERGY**

This amazing book teaches you how to gain a 100 - 300% (or more) improvement in memory, reading speed & comprehension as well as dramatically increase your thinking speed, energy, alertness and ability to see other's true thoughts and intentions.

With an emphasis on using these powerful skills to help others, this book reveals secrets most health professionals, investigators and professors don't know for enjoying a razor-sharp mind, formidable memory, calmer mood, stronger body, remarkable powers of observation and an uncanny ability to read what's really behind someone's words.

It's a fact that the average person's body spends over 18 hours a day digesting food. Learn how to eat regular food (without dieting) in a way that reduces your body's digestive workload to only 7 hours a day! Imagine the increased energy level and maximized ability to fight off disease! Dr. Ortiz also instructs readers on how to detoxify the blood using a common ingredient found at the local supermarket.

## **EXPERIENCE DRAMATIC RESULTS IN DAYS**

Feel the change in your clarity of thinking and physical energy within days! Enjoy this state of high mental and physical performance all the time. Be at the top of your game 24/7. Say goodbye to feeling rundown, absent minded or overwhelmed by things around you. Instead you can have endless energy to observe and take in what is happening around you calmly and clearly.

## **BE LIKE DAREDEVIL OR THE MENTALIST**

And what would it be like to have powers of observation so tireless and highly developed like some modern day Daredevil or mentalist able to know people's true intentions behind the words they say and write? Dr. Ortiz teaches the formidable discernment skill known as Truth Analysis in this outstanding book.

Truth Analysis combines Biblical wisdom with word analysis, deductive reasoning and linguistic clues to reveal the truth behind anyone's words. Train yourself to easily match wits with criminals, con men and other sneaky people as you unmask their deceptions in the many lessons and exercises you'll find in this book.

The information mentioned up to this point is worth well over the 899 American pennies you'd pay for this gigantic, lesson packed book. (It's 500 pages long!) But there's more.

## **BE AN EXPERT IN ANYTHING YOU WANT TO BE**

Imagine having your mind trained to be able to read any book, manual, magazine, memo, etc. and be able remember everything you learned in it for as long as you wish. You could take the information out of your memory at will, as if it were in the most sophisticated library or supercomputer data bank. Think of how great a student you could become. Or how great a student you could show someone to become. You could

become an expert in trades or professions you wouldn't have thought possible.

Now think of not only being able to do this, but to do it quickly, reading at speeds of over 700 words per minute! Reading a book for you would become an investment of a day or two, not a month or two!

True life changer

By Cagri

The author's nutrition recommendation is awesome. It changed my life dramatically in a very short amount of time. I immediately felt that my intelligence and concentration levels started to increase a lot from the very first day that I followed his method. Moreover, I lost all of my excessive weight in 2 months and I feel great both mentally and physically right now.

He introduces a concept called as "The truth analysis" is life saver in the real life situations. I can interpret and analyze what people actually say during a communication much more successful comparing to me two months ago by the truth analysis method and my enhanced mental and physical abilities.

Thanks a lot Ephrain for sharing all the useful information in your book.

I Doubt You'll Be Disappointed

By Randall W. Rasner

Great book by a sincere and knowledgeable author! I don't think you'll be disappointed. I got this to help improve my years of training in detecting deception (I am a police officer) and also I am a very amateur mentalist. In my 50s, it also didn't hurt to get it to help keep my mind sharp throughout the remaining years of my life. Some might not appreciate that the author is a Christian and makes it plain in his book but he does not try to preach to you or make one a convert. I'm a Christian so it was an added bonus to me. Lots to read and learn.
