FROZEN IVY BY BREE RIVERS PDF

The ad for a “personal server” for the powerful Stone brothers seemed like the answer to Ivy’s prayers. Even though it meant agreeing to live on a private island for six months, the pay more than made up for the inconvenience. It wasn’t until she arrived that Ivy discovered when the brothers asked for someone to serve them ... they meant in the bedroom.

Being a sex slave was a first for the sheltered cook, but something about these three men gave Chef Ivy a taste for more spice in her life. Now the only question is: How’s she going to survive without them once the meal is over?

This book is intended for mature audiences.

Good Steamy Start To Series

By Jenny

This book launched straight into the steamy scenes. If your looking for a book with run of the mill sex scenes then this is not going to be for you. To clarify my rating it is a 3 1/2 star review but it felt too low to give it only 3 stars.

The premise of the book is a down on her luck chef having applied for a position believing it to be a chefs position when in actuality it was a position for a sex slave for 3 brothers on an island for 6 months. The story itself wasn't actually bad. The one issue that I did have with it however was the fact that a relatively innocent woman, within minutes/hours of meeting 2 of the brothers launched straight into the role without too many reservations. My other gripe would be that the story that was going on with regards to Grey, one of the brothers, could have been fleshed out more in able to understand more about that character and the events that occurred towards the end of the book.

This is an good introduction to a new author and a good start to a series. I'm intrigued to see how the story will progress following the ending of this book.

Please note I was provided with a copy of this book in exchange for an honest review.

Frozen Ivy

By The Book Chick

My one complaint about the book. It was. too. short. LOL

I liked the setup of the story though. A passable chef takes a lucrative job that promises a lot of cash a fast. For someone whom life has given blow after blow, Ivy takes the opportunity and sees it as a fresh start and a way to clear the skeletons from a dismal past. Ivy will be the personal server to the uber rich Stone brothers. Only, Ivy doesn't understand the "server" part until she reaches the wintry island where they are holed up for six months. Very quickly, Ivy instantly realizes that the services she is required to render are completely sexual. The only sizzling that the brothers really want her to do is in the bedroom or bathroom or any other surface they can devour her on. When Ivy first arrives she meets West, the affable one, and Magnus, the brooding one. The instantly take charge of her body and reality and they heat her body up in a way that she never expected. The trio live in a sexual haze for several weeks. The Stone brothers serve up more pleasure than Ivy has had in her life. Through all of it though, Ivy puts the fact that there is a third Stone brother in the back of her mind. Well, that is until he storms in the house and captures Ivy like a caveman. Gray pummels Ivy's body with pleasure and she loves it. As feelings grow between the quad, Ivy knows that she is falling in love with the men. But that all changes the day Gray's past catches up to all of them and rips Ivy away from them. The. End. Seriously people...the book ends in a cliffy. I was shaking my Kindle because I wanted to know more. I need to know what happens between Ivy and the brothers NOW! LOL

Because the story is short, the pace is fast and the feelings emerge quickly. It wasn't an insta-love type situation but recognize that things do happen at a good clip in the story. If you're looking for a sexy, spicy, and quick read, then you'll definitely enjoy Frozen Ivy. I look forward to reading the next book soon.

There's something special about this book

By FelineDependant

It's funny ... when you watch good porn -- and there is such a thing as "good" porn, as opposed to the majority of the crap that has no substance whatsoever -- you know it. You get pulled into the stories. That makes it fun! If you can relate to any of the characters, you can almost live vicariously through them. The same thing happened with Frozen Ivy. It transcended typical porn and evolved into something surprising, something you can sink your teeth into, if you'll pardon the S&M pun ... One reviewer here got it right when he or she suggested it leaves Shades of Grey in the dust. Frozen Ivy is what porn should be about: fun and titilating and downright hardcore hot and wildly erotic. You want to enjoy yourself along the way, right? This story is the way to go. Lose yourself in some hot, steamy sex while enjoying an honest-to-goodness plot!
