Tripp speaks the truth! There is so much great information in here that is not on his Youtube channel. His tips and techniques really helped build my confidence and approach women. After reading this book I have gotten more dates and had more success with women than at any point in my life.

Tripp knows what he speaks. This isn't one of those magic books that teaches you how to become a stud, without any depth or substance, just to get laid. This really is about your confidence first. Tripp puts in common sense terms ideas that apply not just to dating but really making an impression with anyone. It's an easy read, and probably something you will come back to time and again. Highly recommended for anyone interested in self-improvement.

this was exactly the type of advice I needed

By Amazon Customer

Last week, my friend brought this book with him to the coffee shop.

I read a few pages and I was hooked.

I'm naturally more quiet and lowkey kind of guy and I could tell from the first pages, this was written for me.

I really like how Tripp doesn't focus on changing you into a guy that goes clubbing 7 times a week. This book really showed me exactly how to own who I naturally am and still be able to attract girls that I (wrongly) thought were way out of my league.

My favorite part of this book is the actionable advice.

They're priceless.

I mean I go through a ton of dating and seduction advice blogs, videos and books.

I can name every major dating coach out there and techniques, but wow. I have never seen most of the advice given in this book which is damn amazing to me.

I'm using the steps in this book almost every day (because they're just so easy) and by doing so, I've removed so much stress from my dating life. Lately, girls are finally texting me first, asking me out on dates and flirting back – which is what I truly always wanted.

Thanks so much Tripp. I really appreciated this one.
