Like the historical aspects of the revolution? Want to read documents from the men and women during the time? Pick this up!

By EAE

We are using this as a textbook but my goodness is it a good read. The combination of historical documents and reflections by historians in each chapter is amazing. Detailed documents from the men and women in the colonies during the building of a new nation really pulls you into the time frame and helps with forming a position. The essay reflections by the historians are very well articulated and just as explanatory as the documents themselves and in many ways more so. Do yourself a favor and pick this up if you have any doubts.
