Fake reviews - don't trust them! The book is not as good as others make it out to be!

By Sean

All the reviews are from the company. Read them closely and those of you with intelligence will understand that this is not a 5-star PSAT guide at all. Actually, far from it. Do your research and find another book to purchase.

... took both the SAT and ACT early and wasn't satisfied with other resources

By Jackie T

I took both the SAT and ACT early and wasn't satisfied with other resources. I found this book just after it was released and since it is my junior year this year, I'm glad to have purchased this book. The lesson are written in the style I like and it has so many practice problems, I feel fulfilled. The material is easy to read and understand so you're spending more time on practicing than reading.

I'm also looking forward to their AP books coming soon since I have a bunch of AP tests coming next spring.

Great Test Prep for PSAT AND SAT

By Chusie63

A lot of great practice problems and lessons in this book. This book is unique because it has very simple lessons but a lot of practice material to go through. I receive Test Prep Genius's newsletter and with another PSAT book coming soon and more practice tests, I'm excited to get my hands on those and get more fulfilling practice for the PSAT and new SAT.
