Warning: A May-December romance. An erotic journey between an older controlling man and a younger woman that knows exactly what she wants.

Debbie Kordall was tired of the guys her age who only wanted to party and change girlfriends every other week. She wanted someone older, wiser, and more sophisticated to love.

Mick Reed spotted her right away. The woman at the bar was confident, beautiful, and young... everything he wanted. She was the woman who would commit to him fully, and in return, he'd give her anything she wanted. Was he fooling himself to think that age didn't matter?

May-December romance, mild domination, anal sex, exhibitionism

By LindaM

The older man sees a younger woman who appears to be what he wants, and presto! he takes her home with him, and she, under some spell no doubt, willingly goes with him. They hit it off and he demands she give up her apartment and move in with him, which she does, sort of.... The "sort of" becomes an issue in their relationship, as does the apparent disapproval of her friends. After all he is Twice Her Age. Being only 75 or so pages, it is a novella and consequently feels rather rushed. I don't think anyone in their right minds would move this fast. But it IS a fantasy.

It's well written with only a few errors of word use, so nothing too bad to annoy the reader.

Personally, I just couldn't quite get into it and only read it because I paid for it, but I do NOT feel I got my money's worth. Back to re-reading Cherise Sinclair books until her next one comes out. This author is no competition.
