Our Flag (Little Golden Book)

By squeeKinabubble

My two year old son has a fascination with the flag. We bought this book so that he would have some flags to look at while in the house. He sits there for long periods of time pointing to the flags and "commenting" enthusiastically in his gibberish. When we are done with the book he wants to see it again and again--he even likes to have this book in bed with him. The pictures are bright and colorful. The text is simple and easy to follow; it is a nice first exposure to the history of the flag and the United States. This will be one of our son's favorites for a long time.

A great addition to our Little Golden Book library!

By SAHMommyof2

We have our fair share of new and older Little Golden Books. When I saw this one online I decided to buy it right away for our children. I am so glad I did, it has now become one of my favorite Little Golden Books ever!

This book (with an original copyright of 1960) is informative and adorable at the same time. The artwork is bright and colorful to capture children's attention. The explanations are brief enough for each page, but still tell quite a bit. The book starts out by giving a couple explanations of why we carry or fly our flag. Then it

goes on to tell you about how our flag came about. It explains about the thirteen colonies, what the original flag's stripes and stars symbolized, where it was carried in to battle, how there was the Confederate flag, and then how we had 48 stars for along time until Alaska and Hawaii became states. It was a good review for me as I read it to our children, and I liked the last three pages too: rules for how to carry or fly the flag, times when you salute the flag, and the Pledge of Allegiance.

Overall a great book that would be perfect for any household or preschool to have!

Our Flag is a classic

By Marin

It is a compact, easy to read history of our flag. The pictures hold the interest of my children. It is a good book for parents to read with their children. Also, this book acts like a springboard for family activities and fun into American history. The stories are snippets of history. So we had fun going to the library to look up the rest of the story.
