Two thumbs up, way to go Usborne!

By Beth

I love the "See Inside" series from Usborne books, but don't believe they currently sell this one. Thus, I ordered it here. I was not disappointed! It caught my 3 1/2 year olds interest and we spent so much time going through the flaps and talking about how different people in different times lived. Never thought I'd have such an in depth conversation about that with someone so young, so am grateful to this book for opening up that discussion!

Not exhaustive, but I doubt you can find anything comparable to its educational value

By ScotFlower

I have never seen a book like this for young children. It approaches history and culture by showing different historical homes and the objects they contained. I am fascinated with it. Is it exhaustive? No. But I doubt you can find anything comparable to its educational value.
