Not My Favorite

By dmh

I am usually a fan of Burke, but I wasn't really that into this one. I bought it because I was having a really, really tough time last year, and I realized how **DESPERATELY** I need(ed) to improve my management.

I didn't find the book to be detailed enough, and it didn't have the advice I needed: How to change a tough class around when it's already half way through the year. (Maybe nobody has that advice).

I would recommend "*The First Days of School*" by Wong for more detailed, more specific advice about classroom management. For teachers having a tough year, especially a tough first year, I would recommend Burke's "*Letters to a New Teacher*" for its model of self-reflection.

Good Friend for a Teacher

By Rev. LL

In "*Classroom Management*", author Jim Burke seeks to give a guide to tools for building a smooth-running classroom community where learning flourishes. The book covers four major areas, *Your Classroom*, *Effective Instruction*, *Learning for All* and *Positive Discipline*. It also includes a section on *Troubleshooting*. Its overall look at classroom control can help the new teacher as well as being a refresher for the experienced teacher. Its format makes it perfect for a desk reference for a teacher dealing with an issue at the moment. As an experienced teacher of youth and adults, of secular and Christian curriculums, in workshops and yearlong

classes, I have found this book to be an eye opener for new ideas in teaching. I highly recommend it.
