Highly Entertaining Read

By Greenknight01

I highly recommend this book. It is highly entertaining and well written for it's time. Let me say I would take it all with a grain of salt. I personally knew Ray Fowler the author. I worked at the same government contractor location that he did. (This information is in Ray Fowler's biography available on line and thus considered open source information.) We built the command and control for the ICBM missile systems. Coincidentally, many of the UFO reports in the Mid-West and West were over SAC ICBM Missile bases in the 60's, 70's and 80's... The government objected to Ray Fowler's extracurricular activities due to the sensitive nature of our work. Ray retired early, but I don't know if it were related to his UFO research and related FOIA requests. Before that however, in the September or October 1983 issue of "Boston" magazine there was an article about unusual societies in New England. One such discription of an unusual society and the accompanying photo was about a UFO research group based in New England. The photo of the society members was taken at ground level in black and white just after dusk to give it an erie effect. The members in the picture included Ray Fowler, the public relations director, the VP and GM, and another executive member of the government contractor that Ray Fowler and I worked for. The public relations director was well connected with the television, radio, and written print media groups in the Boston Area at that time. I sometimes wonder if it was done as an inside gag! It was also rummored that one of Andreasson's relations also worked with us. The defense contractor that we worked for no longer exists in name, nor at that location where I worked with Mr. Fowler. It was bought by a larger defense contractor in the 1990's and relocated. Ray Fowler was a highly respected man at work and very keen on the UFO research movement.

aliens

By thomas treacy

a great example of the dangers of pot smoking and the imbibing at the same time and a little short of brains..
