This whole book could easily be scaled-down into a magazine article!

By Lee Say Keng

This whole book could easily be scaled-down into a magazine article. It is packed with too many personal anecdotes & other people's stories, the quantum of which seems to be an over-kill. To use the exact words of one reviewer, "a lot of irrelevant filler information".

A close-up scrutiny of the '5 Easy Steps for Creating Wealth' reveals no big secrets. These are the summary of the 5 Easy Steps (extracted from Page 176):

- Know what you don't want;
- Select what you do want;
- Clear all negative or limiting beliefs;
- Feel what it would be like to have, do, or be what you want;
- Let go as you act on your intuitive impulses, & allow the results to manifest.

Yes, that's it.

In comparison, Napoleon Hill, in the 'Laws of Success', which outlined seventeen success principles, had already revealed them a long time ago. The 'Laws of Success' was based on the author's personal quest that spreaded over twenty years to study the most successful people around his time. It has even been highly acknowledged by Anthony Robbins & Stephen Covey, whose respective works adapted many of the author's original ideas.

Page 31: "Do you want the good you say you seek or don't you?"

By Mike

Page 31 (hardcover edition): "People often write and ask me what one single product can they get that will transform their lives. When I tell them I so loved Dr. Robert Anthony's Beyond Positive Speaking CD set, they are sold. Yet some people complain. "It cost \$99." Ah, of course it costs money. And that's incredibly low for a studio-quality life-changing set of six audios. Are you going to pay it and get what you want, or are you going to dismiss the greatest self-help material of all time? Do you want the good you say you seek, or don't you?"

This is the same logic some people use when they say that God won't listen to your prayers, let alone respond to them, if you do not regularly tithe 10% of your income.

For Vitale, his message is simple. All roads lead to buying more product. That little infomercial I quoted above is one of many in the book. Just think, the only thing between standing between what you want and what you have right now is your reluctance to go online and buy more Joe Vitale product.

Forget it

By Miss Scarlet

Someone showed me this which I read through pretty quick...If you actually want to read something that does bring results check out How To Get Everything You Ever Wanted: Complete Guide to Using Your Psychic Common Sense Its far far better and actually does bring results. I have read other books by the so called *Dr* Joe Vitale and most of them are just cheap ebooks that are sold on ebay with resell rights. His website hosts a ton of these marketing and 'how to become a millionaire' ebooks which are totally a waste of 'e-time'

He is also linked to the secret book and dvd which in itself is a total joke given that recently in Australia contributors to this 'fad movie and book' are now under investigation for fraud. Google 'The Secret and Channel 9' on youtube to check it out...very very positive influences huh?

Skip this book and check out also 'Creative visualization by shakti gawain also sold on amazon
