The Journey Toward Reconciliation

By Dorothy Cutrell

The need for understanding among families, nations, church members and individuals has never been greater. In clear, readable language the author tells stories of his efforts to bring peace between warring factions, which at times resulted in threats against him and his family. The chapters are filled with wise words for anyone who may be dealing with deep seated conflict. The book could be life changing for families, churches, or other groups who find themselves caught in a toxic situation. The objective is to transform enemies into friends. It is a book that makes for peace.

A faithful account of what it takes to build peace

By Donna Williams

A professional mediator and former director of Mennonite Conciliation Service reveals honestly and thoughtfully the heart and guts of the work required for reconciliation. Each chapter weaves stories from personal experience, with scripture and practical advice, into a conclusion. He tells stories that we need to hear. It's an important journal and a helpful guide.

Good writing, great subject matter

By Samatva

This was an assigned school text that was a great joy to read. It clearly states a wonderful approach to conflict transformation that is based on the author's real-life experiences.

It shows how you can confidently step into a conflict situation and be a catalyst to bring about reconciliation among the parties. This is about relationships, about connecting as humans. The approaches detailed in this slim volume works, as I have found ways to put the methods to work right away.

Lederach is an authority on the subject as a good writer, too! A joyous combination!
